

GYTS Objectives

The Global Youth Tobacco Survey (GYTS), a component of the Global Tobacco Surveillance System (GTSS), is a global standard for systematically monitoring youth tobacco use (smoking and smokeless) and tracking key tobacco control indicators.

GYTS is a cross-sectional, nationally representative school-based survey of students in grades associated with ages 13 to 15 years. GYTS uses a standard core questionnaire, sample design, and data collection protocol. It assists countries in fulfilling their obligations under the World Health Organization (WHO) Framework Convention on Tobacco Control (FCTC) to generate comparable data within and across countries. WHO has developed MPOWER, a technical package of selected demand reduction measures contained in the WHO FCTC:

- Monitor tobacco use & prevention policies**
- Protect people from tobacco smoke**
- Offer help to quit tobacco use**
- Warn about the dangers of tobacco**
- Enforce bans on tobacco advertising, promotion, & sponsorship**
- Raise taxes on tobacco**

GYTS Methodology

GYTS uses a global standardized methodology that includes a two-stage sample design with schools selected with a probability proportional to enrollment size. The classes within selected schools are chosen randomly and all students in selected classes are eligible to participate in the survey. The survey uses a standard core questionnaire with a set of optional questions that countries can adapt to measure and track key tobacco control indicators. The questionnaire covers the following topics: tobacco use (smoking and smokeless), cessation, secondhand smoke (SHS), pro- and anti-tobacco media and advertising, access to and availability of tobacco products, and knowledge and attitudes regarding tobacco use. The questionnaire is self-administered; using scannable paper-based bubble sheets, it is anonymous to ensure confidentiality.

In Czech Republic, GYTS was conducted in 2016 by the National Institute of Public Health, under the coordination of the Ministry of Health of the Czech Republic. The overall response rate was 78.3%. A total of 3,926 eligible students in primary school grades 7-9, 6-year grammar school years 1-2, and 8-year grammar school years 2-4 completed the survey, of which 3,521 were aged 13-15 years. Data are reported for students aged 13-15 years.

GYTS Highlights

TOBACCO USE

- 21.2% of students, 21.3% of boys, and 21.1% of girls currently used any tobacco products.
- 19.2% of students, 18.4% of boys, and 20.0% of girls currently smoked tobacco.
- 15.2% of students, 14.0% of boys, and 16.6% of girls currently smoked cigarettes.
- 4.7% of students, 6.4% of boys, and 2.8% of girls currently used smokeless tobacco.

ELECTRONIC CIGARETTES

- 11.2% of students, 12.5% of boys, and 9.8% of girls currently used electronic cigarettes.

CESSATION

- Almost 6 in 10 current smokers tried to stop smoking in the past 12 months.
- Almost 5 in 10 current smokers wanted to stop smoking now.

SECONDHAND SMOKE

- 35.0% of students were exposed to tobacco smoke at home.
- 42.9% of students were exposed to tobacco smoke inside enclosed public places.

ACCESS & AVAILABILITY

- 50.3% of current cigarette smokers bought cigarettes from a shop, street vendor, or stall.
- Among current cigarette smokers who tried to buy cigarettes, 69.1% were not prevented from buying them because of their age.

MEDIA

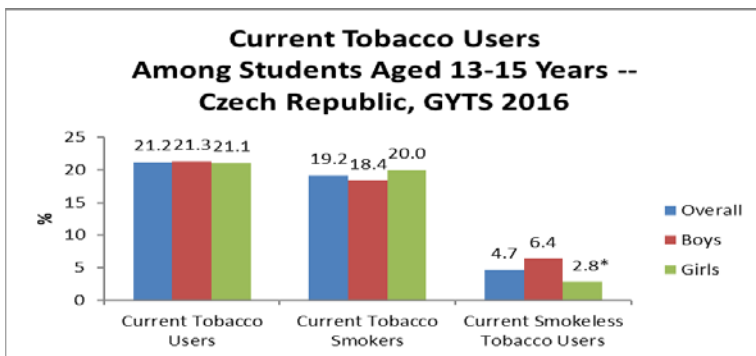

- Almost 5 in 10 students noticed anti-tobacco messages in the media.
- More than 6 in 10 students noticed tobacco advertisements or promotions when visiting points of sale.
- More than 1 in 10 students had something with a tobacco brand logo on it.

KNOWLEDGE & ATTITUDES

- 61.5% of students definitely thought other people's tobacco smoking is harmful to them.
- 83.0% of students favored prohibiting smoking inside enclosed public places.

TOBACCO USE

	OVERALL (%)	BOYS (%)	GIRLS (%)
SMOKED TOBACCO			
Current tobacco smokers ¹	19.2	18.4	20.0
Current cigarette smokers ²	15.2	14.0	16.6
Frequent cigarette smokers ³	5.8	5.8	5.9
Current smokers of other tobacco ⁴	9.1	10.4	7.8
Ever tobacco smokers ⁵	54.0	55.1	52.8
Ever cigarette smokers ⁶	49.8	51.2	48.4
Ever smokers of other tobacco ⁷	31.5	33.1	29.7
SMOKELESS TOBACCO			
Current smokeless tobacco users ⁸	4.7	6.4	2.8*
Ever smokeless tobacco users ⁹	15.0	20.6	9.0*
ANY TOBACCO USE (smoked and/or smokeless)			
Current tobacco users ¹⁰	21.2	21.3	21.1
Ever tobacco users ¹¹	55.6	57.4	53.8
SUSCEPTIBILITY			
Never tobacco users susceptible to tobacco use in the future ¹²	22.5	19.8	25.2*
Never smokers who thought they might enjoy smoking a cigarette ¹³	6.5	6.7	6.4

ELECTRONIC CIGARETTES

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current electronic cigarette users ¹⁴	11.2	12.5	9.8

CESSATION

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current smokers who tried to stop smoking in the past 12 months	59.2	55.7	62.2
Current smokers who wanted to stop smoking now	47.6	47.1	48.0
Current smokers who thought they would be able to stop smoking if they wanted to	87.7	88.7	86.8
Current smokers who have ever received help/advice from a program or professional to stop smoking	3.5	3.1	3.9

SECONDHAND SMOKE

	OVERALL (%)	BOYS (%)	GIRLS (%)
Exposure to tobacco smoke at home ¹⁵	35.0	32.9	37.2*
Exposure to tobacco smoke inside any enclosed public place ¹⁵	42.9	41.1	44.8
Exposure to tobacco smoke at any outdoor public place ¹⁵	71.9	68.9	75.2*
Students who saw anyone smoking inside the school building or outside on school property ¹⁶	35.4	36.0	34.8

ACCESS & AVAILABILITY

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current cigarette smokers who bought cigarettes from a store, shop, street vendor, or stall ¹⁷	50.3	57.3	44.5*
Current cigarette smokers who were not prevented from buying cigarettes because of their age ¹⁸	69.1	70.2	68.1
Current cigarette smokers who bought cigarettes as individual sticks ¹⁹	24.6	23.0	26.0

MEDIA

	OVERALL (%)	BOYS (%)	GIRLS (%)
TOBACCO ADVERTISING			
Students who noticed tobacco advertisements or promotions at points of sale ²⁰	61.8	62.9	60.6
Students who saw anyone using tobacco on television, videos, or movies ²¹	82.4	83.2	81.5
